

**Dr. Aditya Kumar**

*Brief Statement about Dr. Aditya Kumar*

Having 14+ years of experience, I am currently working in the Indian Council of Forestry Research & Education, as Scientist E and Heading the Facilities and Services Division at ICFRE-Institute of Forest Productivity, Ranchi. I have headed the Genetics and Tree Improvement Division from 2023-2026 and worked as Officer-In-Charge of Agroforestry Research Station, Jadua Hajipur (formerly, Forestry Research and Extension Centre). I am also working as administrative scientist of Forest Tree Breeding Research station, Chandwa (Latehar) and Officer-In-Charge (Administration) of ICFRE-Institute of Forest Productivity Ranchi.

*Dr. Aditya Kumar*

## Curriculum vitae

Dr. ADITYA  
*Scientist –E*  
*Genetics and Tree Improvement Division*  
ICFRE-Institute of Forest Productivity  
Ranchi - Jharkhand  
**Additional Charge**  
Head Facilities and Services Division  
ICFRE-Institute of Forest Productivity  
Ranchi-835303 (Jharkhand)  
Mobile: 91- 9431821677

**Experience:** 14 Years + (Since 29<sup>th</sup> September, 2011)

### Domain of Research/Consultancy

- ☐ Genetic Improvement of forest tree species
- ☐ Molecular Characterization of Forest Genetic Resources
- ☐ Agroforestry practices and model development
- ☐ Capacity building of farmers and other stakeholders in tree farming and agroforestry practices
- ☐ Eco-rehabilitation of degraded farmland and mined out areas

### Educational Qualification

| Degree                  | University/Institution                            | Year | Discipline                                                           | Division |
|-------------------------|---------------------------------------------------|------|----------------------------------------------------------------------|----------|
| Ph.D.                   | FRIDU Dehradun                                    | 2020 | Forest Biotechnology                                                 | First    |
| M.Sc. (AG.)             | GBPUA&T, Pantnagar                                | 2009 | Genetics and Plant Breeding with Molecular Biology and Biotechnology | First    |
| B.SC. (Ag.)             | Institute of Agricultural Sciences, BHU, Varanasi | 2007 | Agriculture                                                          | First    |
| Intermediate in Science | Bihar Intermediate Education Council, Patna       | 2001 | Physics, Chemistry, Biology and Mathematics                          | First    |
| Matriculation           | Bihar School Examination Board, Patna             | 1999 | Hindi, English, Sanskrit, Mathematics, Science, Social Science       | Second   |

| Key Achievements                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
