The diagram illustrates the vertical structure of the Rajrapra Miyawaki plantation. It is divided into three distinct canopy layers, each represented by a horizontal line and labeled with yellow text:

- Big Tree Canopy:** The uppermost layer, indicated by a red line, featuring the tallest trees.
- Medium Tree Canopy:** The middle layer, indicated by a yellow line, consisting of trees of intermediate height.
- Small Tree/Shrub Canopy:** The lowermost layer, indicated by a green line, composed of shorter trees and shrubs.

The foreground shows a dense field of green grass and low-lying vegetation. The sky above is overcast with grey clouds.
